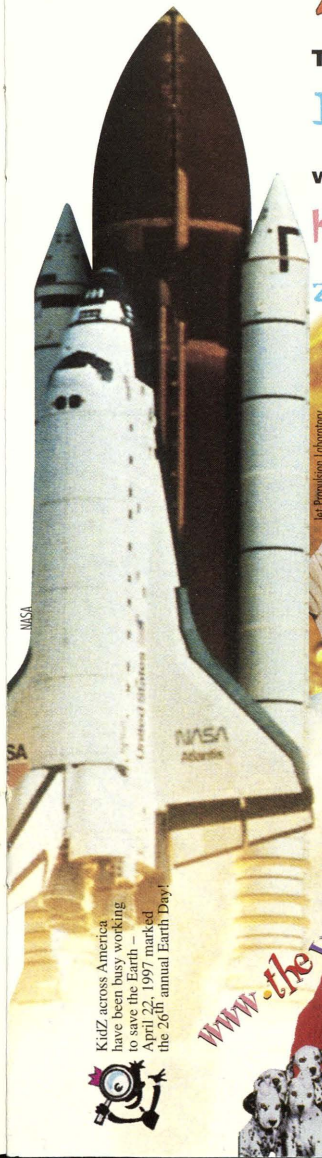
ZOOM: A Zine With Zillions of Ideas About the Year!

This year really zipped by, didn't it? Between Martian Mania and the Dalmatian Invasion, we cheered the Clintons and surfed the world wide web. In a year that was Totally Tiger (Woods, that is), we were awed in Atlanta, and tickled by Elmo. Kerri Strug catapulted into history, Glenn Close made a dashing de Vil, and technology zoomed toward the 21st century — What made YOUR school year sensational?



KidZ across America have been busy working to save the Earth — April 22, 1997 marked the 26th annual Earth Day!

Seeing SpotZ

1996-97 brought puppy love to the big screen as those adorable Dalmatians made a reBARKable comeback in a live-action movie 35 years after their animated story came out in 1961. A careful mix of high-tech mechanical and visual effects and live footage made 101 Dalmatians howl with success. Glenn Close liked the resultZ so much that she arranged to keep the costumes she wore as the FETCHing villain, Cruella de Vil.

OK, so you know 101 facts about those Dalmatians, but are you up to speed on the rest of your dog trivia? Match the picture of the screen star to its name. And if you're up to an extra challenge, number the dogz from past to present.

Canine Classics

Wishbone, a small dog with a big hit television series has got kidZ everywhere itching to gnaw on classic books, canine style! From Charles Dickens' Oliver Twist (renamed "Twisted Tail"), to Native American Folktales ("Dances With Dogs"), Wishbone's got us slobbering all over great stories. Before long, even the evil Sheriff of Nottingham will be scratching Wishbone's belly!

Back to Washington DC again — did you know that America's First Pet is a cat? Socks is the Clinton's feline family member.

Hot Diggity Dawg!

This year, Wishbone was watched by millions on TV and the Dalmatians hit the silver screen. But there's no doubt that dogZ have been acting longer than 96-97 – they've been show-stealers for decades. Still, there's more to canines than their star quality. They save lives, lead the blind, and help people in zillions of ways.

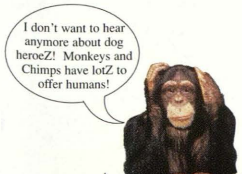
DogZ on Duty

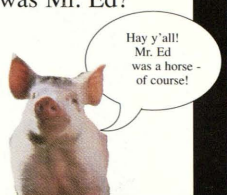
The real stars in the K9 community are not the ones whose names you'd recognize — instead they are dogs specially trained to help people with disabilities. You've probably heard of guide dogs for blind people, but did you know that dogs are learning new skillZ every day that help all kinds of people? DogZ can do lotZ of things — from turning the lights on to helping with the shopping. How's that for a show stopper?

Talk Test

Between talking pigs like Babe, and thinking dogs like Wishbone, TV and movies are brimming with unusually talented animals. Francis the Talking Mule started the Trend in the 1940's and Mr. Ed had all the answers in the 1960's. What type of animal was Mr. Ed?

- ☐ Miss Piggy's porky pal
- ☐ A mighty little mouse
- ☐ A horse of course





Chimps are learning to help people too! In fact, sometimes they can do more than dogs because they supply handZ on help — they have fingers and a thumb for picking things up.

ZOOM in Primate PartnerZ

Monkeys are learning to help people too! In fact, sometimes they can do more than dogs because they supply "handZ on" help — they have fingers and a thumb for picking things up instead of having to use their mouths. This year, monkeys have been lending a helping hand to people who can't use their armZ on their own.

Golden Glory

An Olympic year is always jam-packed with fantastic sportZ memories. What'Z really cool about this year is that TEAMS were in the spotlight — both the men's and women's basketball Dream Teams, women's soccer, softball, and gymnastics all won gold. Tom Dolan and Amy VanDyken blew the competition out of the water to take home swimming gold, and Carl Lewis and Jackie Joyner Kersee leaped to the medal stand in the long jump. But can we still be craZy for sportZ when we're in between Olympic years? Of course! Many Olympic athletes go on to become pro sports starZ. In fact, there were more opportunities for amateurs to turn pro this year than EVER before!

Flipping for First

This year, for the first time ever, the U.S. Women's gymnastics squad won the team gold. All eyeZ were on Kerri Strug as she zoomed down the runway for her last vault. Despite her sprained ankle, she managed to nail the landing, and the U.S. team landed on top of the medal stand. What a gutZy performance! Her coach, Bela Karolyi thought so too.

Did you know that the 2000 Olympic Games in Sydney, Australia, will be a centennial too? It'Z true! Women began competing in the games in 1900, so 2000 will be the gals' 100th anniversary.

DaZZling Double

Michael Johnson had gold on his feet AND around his neck after he sped to two gold medals and one world record in his one-of-a-kind Nikes. He also zipped to a place in the history books as the only man ever to sweep the 400 and 200-meter dashes in Olympic competition. Doubly amaZing, Marie Jose Perec from France, accomplished the same feat on the women's side.

Yankee Fever

The heat was on the New York Yankees and MVP John Wetteland, before they rallied against the Atlanta Braves to win the World Series this year. New York baseball fans were sweating it out in the stands since it had been 20 years since the Yankees held the top honor in 1978.

From Athens to Atlanta

The very first modern Olympic Games were held in Athens, Greece in 1896. That means that the Atlanta games marked 100 years of Olympic competition. The opening ceremonies in Georgia were all about remembering and celebrating the history of this meeting of athletes from all over the globe.

Move Over Michael!

Women basketball players rebounded off their golden success in Atlanta. This year two new pro organiZations for women were formed, the American Basketball League and the Women's NBA. Suddenly Michael Jordan isn't the only one who can slam-dunk with style — 6'5" center, Lisa Leslie, who once scored 101 points in the first *half* of a high school game, and her teammates can jam with the best of 'em.

Hottest Game on Ice

Hockey has become "the coolest game in town" as more kidZ – boys AND girls — are playing – even in places with warm climates! Cool as ice, the U.S. National Team beat their northern neighbors from Canada this year.

Can You Say G'day?

The world will meet "Down Under," as Australia is nicknamed, for the next summer games. Famous for its amaZing opera house, Sydney is called the "model city for the future." Olympic planners are taking that title to heart, making sure the 2000 games will be good for the environment — there will be reusable tickets, buildings made from recycled materials, and even a solar-powered athletes' village!

We all know that the moon isn't made out of cheese, but did you know that water (ice) was discovered on the moon's surface this year? Speaking of far out, did you experience the lunar eclipse this year?

We Have Lift Off...

Do you know what NASA stands for? It's the National Aeronautics and Space Administration. NASA was formed in 1958 and continues today to explore space for peaceful and scientific purposes. Here are some of the important events in NASA hiZtory.

- **In 1958, the U.S. launched the Explorer 1 satellite to zoom out for a better look at our planet.**
- **In 1961, Alan B. Shepard became the first American in space.**
- **Apollo 13 made history when the crew survived an explosion, and made it safely back to Earth in 1970.**
- **Sally Ride became the first American woman, and Guion Bluford became the first African-American man in space when they were crew members of the space shuttle Challenger in 1983.**
- **Shannon Lucid performed experiments on the Russian space station Mir in 1996.**

President Bill Clinton was re-elected in 1996 and is striving to build a "Bridge to the 21st Century." Shannon Lucid blasted back to Earth after spending over six months in space, and scientists discovered a fossil that's sparking thoughts about zooming in on Mars. And speaking of tomorrow, America's First Daughter, Chelsea Clinton, is getting ready to graduate from high school! No wonder the newZ is studded with futuristic features!

NASA

Mars Rocks!

Born 4.5 million years ago, a rock labeled ALH84001 has scientists asking questions about life in the universe. ALH crash-landed 13,000 years ago in the deep freeZe of Antarctica, and stayed there until researchers spotted in 1986. It was easy to see because it had a bright green glow in the ice. Kryptonite? Not quite. ALH is one of 12 Mars rocks on Earth. This year, NASA scientists believe to have discovered Martian micro-fossils in the rock. Could life have existed on Earth's neighbor planet 4,000,000,000 years ago? What do you think?

Jet Propulsion Laboratory

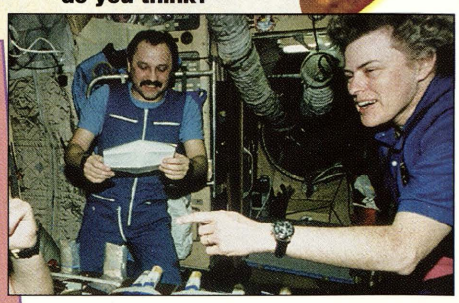
It'Z in Your HandZ

You turn on your computer and you've got E-mail from NASA. "X33 is your big chance to make aerospace history," they tell you. "If you can come into training right now, you can be a member of the very first crew on this way-cool, brand new shuttle!" What do you say? Talk it over with your buds, and check a box to send your response.

- ☐ No way! **My attitude is better in this atmosphere.**
- ☐ Maybe. **Send me my space suit and I'll see how it fits.**
- ☐ Take me to the Stars! **I'll pay for my ticket if I have to!**

Party in the Stars

Are YOU up for an orbital adventure? In 2005, you could be cruising the galaxy aboard X33 — a new shuttle design that will transport 100 people to space at one time.



Everything but X-Ray Vision

Sometimes called the "space superwoman" by her NASA pals, astronaut Shannon Lucid, age 53, traveled **67,000,000** miles and orbited the Earth a whopping **3,008** times. She also touched-down into the record books by spending **188 straight days** in space. Even though this was the longest of her journeys, Shannon is far from inexperienced when it comes to flight — she has been on four other shuttle missions, and long before her NASA days, she earned her pilot's license at age 17.

Attention Earthlings! The *Counting Crows* say "we all wanna be big, big stars," but do you know why? The main difference between stars and planets is that stars produce their ***own*** heat and light, whereas planets do not!

President Clinton is the first Democrat to win a second term since Franklin Roosevelt — and he was president over 50 years ago!

Were YOU born to inhabit the White House?

"Ask Not What Your Country Can Do for You," said John Fitzgerald Kennedy in his famous inaugural address in 1961. Young Bill Clinton followed his advice and asked what HE could do for his country and decided that he wanted to be preZ himself.

Four More YearZ

The first family had lotZ to smile about this year. America's 42nd president, William Jefferson Clinton was elected to a second term in 1996. He defeated Republican candidate, Bob Dole. Both the President and Mrs. Clinton are focused on zooming our country into the 21st century. The First Lady, Hillary Rodham Clinton, even asked kidZ what they thought about building classrooms for the future. Guess with the Clintons still in Washington, the White House kitchen will need a 4-year supply of peanut butter and banana sandwiches — Mr. President's favorite snack.

Are you a 21st Century WhiZ Kid?

Do you have a cyber clue? See how you do on this techno true and false quiZ.

1. The World Wide Web is a giant hang-out for spiders. ☐ T ☐ F
2. Snail Mail is communication for the world's slowest animals. ☐ T ☐ F
3. Web surfing is something your family might be mad at you for doing in the bathtub. ☐ T ☐ F

Positively PreZidential!

Oops! The vote tabulators made a mistake—it turns out that Bill Clinton DIDN'T win the '96 election—YOU did! Now that you're the big cheeZe in the oval office, you get to decide what issues to tackle between now and 2001. Talk it over with your team of advisors, and check your issues on this official presidential stationery. Don't forget to sign the bill!

- ☐ More bucks for school books.
- ☐ Move in on Mars!
- ☐ Budget BiZ – it's a balancing act!

24 HourZ with Chelsea

Think your life is totally different than Chelsea Clinton's? OK, so you don't have your own body guard, a bedroom in the White House, OR own one of the country's most famous cats — but you may have more in common with the First Kid than you think. Chelsea's favorite subjects in school are history and science. When she's not in the Chemistry lab, she sits mat-side at school wrestling meets… gets a workout in ballet class (she had a role in the Nutcracker this year)… or just hangZ with her friends. And, yes, even if your parent IS PreZ, you still have to get home on time — do you think Chelsea's secret service people make sure she does?

Match the zoomed-in snapshot of the year to its caption!

- **A.** A professor at the University of Chicago discovered a five foot long skull this year. It belongs to the world's largest dino – the Carcharodontosaurus.
- **B.** Killer whale Keiko packed up and left Mexico City to make a new home at the Oregon Coast Aquarium this year. With colder water, better diet and medical attention, The Free Willy film star has gained over 1,000 pounds since the move.
- **C.** We were so craZy about Dalmatians this year that we even ate chocolate bars made to look like their fur!
- **D.** The site of the Olympic Games in 2000 is famous for its opera house. It was even featured in the closing ceremonies in Atlanta.
- **E.** Homework, high-tech games, and even electronic notes to your friends – you can do it all if you can use a computer.
- **F.** Angel in the outfield? The Yanks thought so. Jeff Maier, watching the game, caught a fly ball.
- **G.** There are only 50,000 of them left on earth – Asian elephants that is! This year Barnum & Bailey Circus built a conservation center to help this cause.
- **H.** No buttZ about it! Nickelodeon star Larisa Oleynik helped launch a no smoking campaign this year.
- **I.** We "stormed" the movie theaters in '96 to experience the special effects extravaganza Twister. What kind of weather did you see in your home town this year?
- **J.** Michael Jordan Space Jammed his way to the big screen when he co-starred with Bugs Bunny in this animated adventure.
- **K.** Kerri Strug didn't let her sprained ankle get in the way of landing her final vault in Atlanta – and she has gold to show for it!
- **L.** Move over Keanu! Larry Champaign III was the hero in a real-life version of Speed, when he took control of a school bus after the driver suffered a stroke.
- **M.** Mars AttackZ! Movies about Martians and the fossil discovery got us asking lotZ of questions about the Red Planet.
- **N.** Rockin' rhythms charged up 96-97. From the percussion dance team, Stomp, to the Macarena, the latest sensation, the whole world was really moving!
